ATTACHMENT A. EXPLANATION OF TERMS

ATTACHMENT B. MEDICAID COVERAGE IN IHS AREAS

ATTACHMENT C. UNADJUSTED PAYMENTS FOR MEDICAID ENROLLEES AND RECIPIENTS OF SERVICES IN IHS AREAS

ATTACHMENT D. RISK ADJUSTMENT: MORBIDITY IN IHS AREAS

ATTACHMENT E. NUMBERS OF MEDICAID RECIPIENTS IN FFS AND CAPITATED MEDICAL CARE BY AGE, ENROLLMENT MONTHS, STATE AND IHS AREA

ATTACHMENT F. ANALYSIS 1: ADJUSTED PAYMENTS FOR MEDICAID RECIPIENTS, UNDER AGE 65, ENROLLED 12 MONTHS IN MEDICAID, IN FEE-FOR-SERVICE MEDICAL CARE

ATTACHMENT G. ANALYSIS 2: ADJUSTED PAYMENTS FOR MEDICAID RECIPIENTS, UNDER AGE 65, ENROLLED 12 MONTHS IN MEDICAID, IN CAPITATED MEDICAL CARE

ATTACHMENT H. ANALYSIS 3: ADJUSTED PAYMENTS PER MONTH FOR RECIPIENTS, UNDER AGE 65, ENROLLED ANY MONTHS IN MEDICAID, IN FEE-FOR-SERVICE MEDICAL CARE

ATTACHMENT I. ANALYSIS 4: ADJUSTED PAYMENTS PER MONTH FOR RECIPIENTS, UNDER AGE 65, ENROLLED ANY MONTHS IN MEDICAID, IN CAPITATED MEDICAL CARE

ATTACHMENT J. ANALYSIS 5: ADJUSTED PAYMENTS FOR RECIPIENTS, AGE 65 & OVER, ENROLLED ANY MONTHS IN MEDICAID, IN FEE-FOR-SERVICE MEDICAL CARE

ATTACHMENT K. ANALYSIS 6: ADJUSTED PAYMENTS PER MONTH FOR RECIPIENTS, AGE 65 & OVER, ENROLLED ANY MONTHS IN MEDICAID, IN FEE-FOR-SERVICE MEDICAL CARE

# Attachment A. Explanation of Terms

**Active User** – American Indians/Alaskan Natives (AIAN) who have had a reportable medical or dental visit to an Indian Health Service (IHS) Service Unit healthcare provider within a period of three federal fiscal years. A '2006 IHS Active User' had at least one visit to an IHS, tribal or Urban Indian health program Service Unit between October 1, 2004 and September 30 2006.

**Adults** — Under Medicaid, parents or caretaker relatives of dependent children are eligible as adults based on one of several criteria: (1) they qualify as parents or caretaker relatives under section 1931 provisions, which relate to prior Aid to Families with Dependent Children (AFDC) cash assistance standards (including unemployed parents), (2) they are medically needy, (3) they qualify under poverty-related eligibility criteria (including pregnant women), (4) they are eligible under a section 1115 demonstration, or (5) they qualify under other adult eligibility provisions. Adults who have been granted Medicaid eligibility under disability provisions are usually identified as disabled beneficiaries. Some persons under age 21, who are parents, or caretaker relatives of dependent children or who are pregnant, may be identified as adults. In some States, childless adults (non-disabled adults who are not parents or caretaker relatives of dependent children or pregnant women) may qualify for Medicaid as adults under section 1115 rules. By Federal law, all States have to extend Medicaid to pregnant women with income less than 133 percent of the FPL.

**Aged —** One of the categories used for classifying Medicaid and Medicare enrollees. Under Medicaid, persons age 65 or over are included if, in addition to initially being age 65 or over met certain means (income and resources) criteria or incur medical expenses for health care that when deducted from income qualifies the individual for Medicaid. Not all persons age 65 or over are included in this group. For example, persons initially enrolled and classified as disabled may remain so classified even when they reach age 65**.** Under Medicare, persons age 65 or over are included in this category if they are: entitled to monthly Social Security Administration (SSA) benefits or payments from the Railroad Board, uninsured for SSA or Railroad Board benefits, but transitionally insured for Medicare, or not included in the previously mentioned groups, but based on meeting certain criteria, elect to purchase Part A (Hospital) and/or Part B (Medical: Supplementary Medical Insurance) coverage by paying the appropriate monthly premium.

**Basis of Eligibility** – Categories of age, disability and family status of Medicaid Eligibles that when taken together with their Maintenance Assistance Status classify their current eligibility for Medicaid benefits: Aged, Blind and Disabled, Children, Adults, Children of Unemployed Parents, Unemployed Adults, Foster Care, Breast Cancer, and Unknown.

**Case Management** — A process whereby covered persons with specific health care needs are identified and a plan that efficiently utilizes health care resources is formulated and implemented to achieve the optimum outcome in the most cost-effective manner (refer to PCCM).

**Children** — Under Medicaid, children are eligible based on one of several criteria: (1) they are dependent children who qualify under section 1931 provisions, which relate to prior AFDC cash assistance standards (including children of unemployed parents), (2) they are medically needy, (3) they qualify under poverty-related eligibility criteria, (4) they are foster care or adoptive children, (5) they are eligible under a section 1115 demonstration, or (6) they qualify under other child eligibility provisions. States may elect to define the age cutoff for children at 19, 20, or 21 years. Children who have been granted Medicaid eligibility under disability provisions are usually identified as disabled beneficiaries. Some persons under age 21, who are pregnant, or who are parents or caretaker relatives of dependent children, may be identified as adults. By Federal law, all States have to extend Medicaid to children under age 6 with family income less than 133 percent of the FPL and to children under age 19 with family income less than 100 percent of the FPL.

**Children's Health Insurance Program** (**CHIP**)—A program designed to provide health coverage to uninsured children with incomes too high to qualify for Medicaid, but too low to afford private health insurance. CHIP is funded through a Federal/State partnership and was enacted as part of the Balanced Budget Act of 1997. The Children's Health Insurance Program that expanded health care coverage to the nation's uninsured children, and some families. The Social Security Act authorizes multiple waiver and demonstration authorities to allow states flexibility in operating CHIP programs as expansions of Medicaid (Title XIX) or as separate state (Title XXI) programs, or both. The 3 types of state CHIP programs thus have different data reporting requirements depending on whether they are funded with Title XIX funds only (Medicaid CHIP); Title XXI funds only (non-Medicaid State-only CHIP), or combination Title XIX and Title XXI funds (Medicaid expansion and a non-Medicaid State-only CHIP):

**Medicaid CHIP** programs must report all Medicaid CHIP program data to the Medicaid State Information System (MSIS) which is then included in the online State Summary Data Mart.

**Non-Medicaid, State-only CHIP** programs do not have to report state-only CHIP program data to MSIS.

**Combination (Medicaid Expansion CHIP and Non-Medicaid, State-only CHIP)** programs must report the Medicaid CHIP program data to the Medicaid State Information System (MSIS), but do not have to report state-only CHIP program data to MSIS.

**Claim** — A request to a carrier, intermediary, a State by a beneficiary, or by a provider acting on behalf of a beneficiary for payment of benefits under Medicare or Medicaid**.**

**Clinic Services** – Clinic services include preventive, diagnostic, therapeutic, rehabilitative, and palliative items or services that are provided to outpatients by a facility that is not part of a hospital but is organized and operated to provide medical care to people who do not stay in any clinical facility.

**Comprehensive Managed Care Plan (CMCP) —** A health plan that manages and delivers a comprehensive package of health services under a risk-based arrangement. The CMCP usually receives a monthly premium or capitation payment for each enrollee. The dollar amount is based on a projection of what the typical patient will cost. If enrollees cost more, the CMCP may suffer loses. If the enrollees cost less, the CMCP profits, thus providing incentive for cost control (refer to managed care).

**Contract Health Services (CHS)** – Services not available directly from IHS or Tribes that are purchased under contract from community providers, including hospitals and clinical practitioners. The term is defined in Section 4(5) of the Indian Health Care Improvement Act, Title 25 U.S.C. § 1603(5).

**Contract Health Service Delivery Area (CHSDA)** – Counties that are in or near tribal lands served by IHS Service Units in which AIAN must live to be eligible for Contract Health Services.

**Dental Services** – Dental services include diagnostic, preventive, or corrective procedures provided by or under the supervision of a dentist in the practice of his or her profession, including treatment of the teeth and associated structures of the oral cavity; and disease, injury, or an impairment that may affect the oral or general health of the recipient. A dentist is an individual licensed to practice dentistry or dental surgery. Dental services include dental screening and dental clinic services and services related to providing and fitting dentures as dental services. Dental services included in this Medicaid category do not include services provided as part of inpatient hospital, outpatient hospital, non-dental clinic, or laboratory services and billed by the hospital, non-dental clinic, or laboratory or services.

**Disabled** — One of the categories used for classifying Medicaid and Medicare enrollees. Under Medicaid, refers to low-income individuals of any age who are eligible as persons meeting SSA's programmatic definition of disability. This includes individuals receiving SSI as well as those whose incomes are too high for SSI, but qualify under separate Medicaid income standards. Under Medicare, disabled under age 65 receiving Social Security or Railroad Board disability insurance benefits for 24 months are eligible for coverage. Individuals under age 65 who are diagnosed with ESRD are also eligible to receive Medicare benefits and are included with the disabled unless otherwise noted.

**Dual Eligible** — A person having entitlement to more than one program or plan. The term is sometimes limited to an individual who is eligible both for Medicare and Medicaid coverage, depending on the services and limitations placed by the State, as well as payment of Medicare monthly premium, deductibles, and coinsurance. More broadly used to include Medicare beneficiaries eligible for some or all of the Medicare cost sharing, but not full Medicaid benefits (refer to buy-in, dual entitlement, MN, QMB, QDWI, and SLMB).

**Eligibility —** Meeting the requirements for coverage under Medicare, Medicaid, or CHIP. In Medicaid data, the term eligible is often used to refer to individuals who qualify and have actually enrolled in the program.

**Enrollee** — A person who is eligible for coverage and is enrolled in the Medicare, Medicaid, or CHIP programs.

**Federal Poverty Level (FPL) —** Low-income guidelines established annually by the Federal Government. The income level for the FPL depends on the number of people in the family unit. Public assistance programs, including Medicaid and CHIP, often define income limits in relation to FPL**.**

**Fee-for-Service (FFS) Payment** — The traditional health care payment system, under which physicians and other providers receive a payment for each unit of service they provide.

**Home Health Services** – These are services provided at the patient's place of residence, in compliance with a physician's written plan of care. Mandatory services include nursing services provided on a part-time or intermittent basis by a home health agency (a public or private agency or organization, or part of any agency or organization that meets the requirements for participation in Medicaid). If there is no agency in the area, it is mandatory that the services be provided by a registered nurse who is licensed to practice in the State, receives written orders from the patient's physician, documents the care and services provided; and has had orientation to acceptable clinical and administrative record keeping from a health department nurse. Services must also include home health aide services provided by a home health agency; and medical supplies, equipment, and appliances suitable for use in the home. Other services are optional: physical therapy, occupational therapy, or speech pathology and audiology services.

**Indians** – The legal definition of 'Indian" for the purposes of CMS programs and implementation of the Affordable Care Act (ACA) includes those persons defined as Indians in the U.S. Code of Federal Regulations (C.F.R.): 42 CFR 447.50(b)(1).

**Indian Health Service (IHS)** – The agency in the U.S. Department of Health and Human Services established by Section 601 of the Indian Health Care Improvement Act (IHCIA), Title 25 U.S.C. § 1661.

**IHS Active User –** See 'Active User'

**IHS eligible AIAN** – Members of federally recognized 'Indian tribes' and other individuals who meet criteria as "Indians" consistent with the IHS (including Eskimos, Aleuts and other Alaska Natives, California Indians, certain Urban Indians, and descendants of tribal AIAN). The IHS is charged with providing health care to eligible individuals pursuant to 42 C.F.R. part 136 and Section 813 of the Indian Health Care Improvement Act (IHCIA), Title 25 U.S.C. § 1680c. AIAN in the National Patient Information Registry System (NPIRS) of the IHS are IHS eligible AIAN registered locally with IHS health care program providers on or near a tribal land, or in an urban Indian program.

**IHS Areas** – 12 areas of the U.S. made up of all or part of 35 states that include federally recognized tribes and their tribal lands served by IHS Service Units. Since IHS Administrative Areas are built around tribal lands, they frequently cross state and county boundaries. The Areas can be approximated by IHS Contract Health Service Delivery Area (CHSDA) counties, but Service Units do provide Direct Services (not CHS services) to IHS eligible AIAN living on or near the tribal lands, but not living in CHSDA counties.

**IHS Area States** – The 35 states of which any part is included in one or more of the 12 IHS Administrative Areas.

**IHS Program** – An IHS funded set of services provided by the IHS, or a health program operated by an Indian tribe or tribal organization under a contract or compact with the IHS pursuant to the Indian Self-Determination and Education Assistance Act (ISDEAA) 25 U.S.C. § 450 *et seq*. These services are delivered directly by the Indian health care provider, or purchased by the IHS through contractual arrangements with providers in the private sector.

**Inpatient Hospital Services** – Inpatient hospital services are ordinarily furnished in a hospital for the care and treatment of people who are admitted to stay for treatment for disorders other than mental diseases under the direction of a physician or dentist. The facility is licensed or formally approved (as for Outpatient Services above) and has in effect a utilization review plan applicable to all Medicaid patients unless a waiver has been granted by the Secretary of Health and Human Services.

**Intermediate Care Facilities Services** – These are services provided in an institution for mentally retarded persons or persons with related conditions if the primary purpose of the institution is to provide health or rehabilitative services to such individuals.

**Laboratory and Imaging Services —** Professional and technical laboratory and radiological services (X-rays, CAT scans, MRI, etc) which may be ordered and provided by or under the direction of a physician or other licensed practitioner, or ordered by a physician and provided by a referral laboratory. It does not include such services ordered or provided by a *hospital* inpatient or outpatient department or clinic. These services must meet requirements of the Clinical Laboratory Improvement Amendment of 1988**.** Laboratory and imaging services provided within I/T hospitals, outpatient departments and clinics thus are not included. X-ray services provided by dentists are reported under dental services.

**Maintenance Assistance Status** – Categories of financial and other material assistance for which Medicaid Eligibles have established eligibility that, taken together with their Basis of Eligibility, classify their current eligibility for Medicaid benefits.

**Managed Care** — A system in which the overall care of a patient is overseen by a single provider or organization. Many State Medicaid programs include managed care components as a method of ensuring quality in a cost-efficient manner.

**Mandatory versus Optional Services —** Mandatory services are a specific set of services that must be covered by any State participating in the Medicaid Program (unless waived under section 1115 of the Social Security Act) as opposed to those which a State may elect to include under its Medicaid plan or waivers**.**

**MAX** – Medicaid Analytical eXtract (MAX). MAX data is an extract from the national MSIS system of data reported by all states from their Medicaid enrollment (eligibility) and paid claims files. Enrollment and service use data is extracted from MSIS data and then organized by the date of service use during one calendar year, regardless of when the claim to Medicaid (or Medicaid CHIP) was paid.

**Medicaid** – A joint federal and state program that helps with medical costs for some people with low incomes and limited resources. Medicaid programs are established by states with federal guidelines. Medicaid programs vary from state to state.

**Medicaid Statistical Information System** (**MSIS)** — As a result of legislation enacted from the Balanced Budget Act of 1997, States are required to submit all their eligibility and claims data on a quarterly basis, beginning in FY 1999, through the MSIS. MSIS is the basic source of State-reported eligibility and claims data on the Medicaid population, their characteristics, utilization, and payments. This system replaced the HCFA-2082. States submit Medicaid eligibility and claims data electronically to this CMS data system with standardized data definitions and formats. MSIS data is organized by state and the date that claims are paid each calendar year. MSIS data is made available to authorized users either online or extracted to form other data sources such as Medicaid Analytical eXtract or MAX data.

**Medically Needy (MN) Eligibles**—An optional Medicaid eligibility group consisting of individuals who qualify under an income standard—the MN income level—that is separate from the standards used for categorically needy coverage. MN enrollees must meet Medicaid's categorical requirements (aged, disabled, adults with children, children) and may meet the MN income level by incurring high medical expenses—usually from hospital or nursing home care— which are deducted from their incomes in the process known as "spend-down".

**Mental Health Facility Services** – An institution for mental diseases is a hospital, nursing facility, or other institution that is primarily engaged in providing diagnosis, treatment or care of individuals with mental diseases, including medical care, nursing care, and related services.

**Nursing Facilities Services –** These are services provided in an institution (or a distinct part of an institution) which is primarily engaged in providing to residents: 1) Skilled nursing care and related services for residents who require medical or nursing care; 2) Rehabilitation services for the rehabilitation of injured, disabled, or sick persons, or 3) health-related care and services to individuals who, because of their mental or physical condition, require care and services on a regular basis above the level of room and board ) which can be made available to them only through institutional facilities.

**Other Care** – Transportation, abortion, and other services do not meet the definitions of any of the previously described service categories. They may include, but are not limited to, Prosthetic devices, Eyeglasses, and Home and Community-Based Waiver services (for example, community homes for the disabled and adult day care).

**Other Licensed Practitioners' Services** – These are medical or remedial care or services, other than physician services or services of a dentist, provided by licensed practitioners within the scope of practice as defined under State law who can file claims for their services with the state Medicaid program. The category "Other Licensed Practitioners' Services" is different than the "Other Care" category. Examples of other practitioners (if covered under State law) include: Chiropractors; Podiatrists; Psychologists; and Optometrists. Speech therapists, audiologists, opticians, physical therapists, and occupational therapists are not included within Other Licensed Practitioners' Services. Other Licensed Practitioners' Services do not include prosthetic devices billed by physicians, laboratory or X-ray services provided by other practitioners, or services of other practitioners that are included in inpatient or outpatient hospital bills. These services are counted under the related type of service as appropriate. Devices billed by providers not included under the listed types of service are counted under Other Care.

**Outpatient Services** – Outpatient services include preventive, diagnostic, therapeutic, rehabilitative, and palliative services, furnished by a facility that is licensed or formally approved as a hospital to people not admitted to stay in the facility. The most common services used by AIAN Eligibles served through Medicaid are outpatient services.

**Personal Support Services** – This service category includes services furnished to an individual who is not an inpatient or resident of a hospital, nursing facility, intermediate care facility for the mentally retarded, or institution for mental disease that are authorized for an individual usually in accordance with an approved service plan. The services include Personal Care Services, Targeted Case Management Services, and Rehabilitative Services, Physical Therapy, Occupational Therapy, and Services for Individuals with Speech, Hearing, and Language Disorders, Hospice Services, Nurse Midwife, Nurse Practitioner, Private Duty Nursing, and Religious Non-Medical Health Care Institutions.

**Physicians' Services** – Physician services are those services provided within the scope of practice of medicine or osteopathy as defined by state law by a licensed individual whether furnished in a physician's office, a recipient's home, a hospital, a nursing facility, or elsewhere. Services provided by dentists within the scope of their practice are included if allowed by state law. Services provided under the personal supervision of such an individual are also included.

**Poverty-Related Eligibles** — These individuals are eligible for Medicaid without regard to cash assistance or MN standards. They are eligible for Medicaid based on income below a stated percentage of the FPL. They include pregnant women, newborns up to age 1, children up to age 18, aged, blind, and disabled individuals. At State option, certain aged, blind, and disabled poverty-related eligibles may receive the full scope of Medicaid benefits.

**Premium —** A monthly fee that may be paid by Medicare, Medicaid, and CHIP enrollees. Medicare HI enrollees who are Social Security or RRB beneficiaries and who qualify for coverage through age or disability are not required to pay premiums. Aged persons who are not eligible for automatic HI enrollment may pay a monthly premium to obtain HI coverage. SMI enrollees pay a monthly premium that is updated annually to reflect changes in program costs.

**Prepaid Health Plan (PHP) —** A partially capitated managed care arrangement in which a managed care company is at risk for certain outpatient services.

**Prescribed Drugs** – Prescribed drugs include filled prescriptions for medications for the cure, mitigation, or prevention of disease or for health maintenance that are prescribed by a physician or other licensed practitioner within the scope of professional practice as defined and limited by federal and state law on a written prescription that is recorded and maintained in the pharmacist's or practitioner's records; and dispensed by licensed pharmacists and licensed authorized practitioners in accordance with the State Medical Practice Act.

**Primary Care —** Basic or general health care, traditionally provided by family practice, pediatrics, and internal medicine.

**Primary Care Case Management (PCCM) —** Managed care option allowed under Section 1915(b) of the Social Security Act in which each participant is assigned to a single primary care provider who must authorize most other services, such as care by specialty physicians, before the other providers can be reimbursed by Medicaid. Usually, services for care other than the case management fee are reimbursed on a FFS basis.

**Programs of All-inclusive Care for the Elderly** (**PACE**) — An optional Medicaid benefit that combines medical, social, and long-term care services for frail people. To be eligible, a person must: Be age 55 or over; live in the service area of the PACE program; be certified as eligible for nursing home care by the appropriate State agency; and be able to live safely in the community. The goal of PACE is to help people stay independent and live in their community as long as possible, while getting high quality care they need.

**Provider** — A Medicare provider is a facility, supplier, physician, or other individual or organization that furnishes health care services. Under Medicaid, a provider is an individual, group, or agency that provides a covered Medicaid service to a Medicaid enrollee.

**Qualified Disabled and Working Individuals** (**QDWI**)—Medicaid is required to pay Medicare Part A premiums for certain disabled individuals who lose Medicare coverage because of work. These are individuals whose income is below 200 percent of the FPL and whose resources are not more than twice the value allowed under SSI (refer to buy-in, dual eligible, dual entitlement, MN, QMB, and SLMB).

**Qualified Medicare Beneficiary** (**QMB**)—A low-income Medicare beneficiary who qualifies for certain assistance under Medicaid. The beneficiary must have Medicare Part A and income less than or equal to 100 percent of the FPL and resources below twice the value allowed under SSI. For those who qualify, the Medicaid program must pay Medicare Part A premiums (if applicable), Part B premiums, and Medicare deductibles and coinsurance amounts for Medicare covered services depending on the State's fee schedule. Some of these individuals may qualify for full Medicaid benefits and are sometimes referred to as "QMB pluses" (refer to buy-in, dual eligible, dual entitlement, MN, QDWI, and SLMB).

**Qualifying Individual** (**QI**)—A low-income Medicare beneficiary for whom Medicaid pays all or part of the Medicare Part B premium, depending on beneficiary income and resources. States receive 100 percent matching from the Federal Government for this program. Congress provided funding for the QI program through FY 2002.

**Racial AIAN –** In data files, Racial are people for whom 'American Indian' or 'Alaskan Native' has been selected from race classifications offered. Race classifications offered vary among federal data sources, and compilations of race classifications in federal data files vary as well. In this report 'Racial AIAN in the MAX data' are defined as those Medicaid enrolled people whose Medicaid enrollment (eligibility) records indicate their race as 'AIAN only,' and their ethnicity 'not Hispanic.' 'Racial AIAN in Census data' are defined as those people whose Census records indicate their race as 'AIAN only' or 'AIAN in combination with any other Race' regardless of Hispanic ethnicity. The latter definition is that desired by the CMS TTAG, the former definition is the best definition possible with CMS Medicaid and Medicare data as it is obtained and processed by CMS.

**Recipient**—A Medicaid enrollee who receives a Medicaid-covered service (an alternate reference to eligible served, enrollee served or beneficiary).

**Social Security Act**—The Titles of the 1965 Social Security Act include: Title II—Old Age, Survivors, and Disability Insurance Benefits (OASDI); also, Social Security; Title IV-A AFDC; Title IV-B—Child Welfare; Title IV-D—Child Support; Title IV-E—Foster Care and Adoption; Title IV-F—Job Opportunities and Basic Skills Training; Title V—Maternal and Child Health Services; Title XVI—SSI; Title XVIII—Medicare; Title XIX—Medicaid; Title XX—Social Services; and Title XXI—CHIP.

**Social Security Administration (SSA)** — The Federal agency responsible for administering the Old Age, Survivors, and Disability Insurance (OASDI) program as well as the Supplemental Security Income (SSI) program of the Social Security Act.

**Specified Low Income Medicare Beneficiary (SLMB) —** A low-income Medicare beneficiary who qualifies for certain assistance under Medicaid. The beneficiary must have income above 100 percent, but not in excess of 120 percent of the FPL and limited resources. For those who qualify, the Medicaid program pays the Medicare Part B premium. Some of these individuals may qualify for full Medicaid benefits and are sometimes referred to as "SLMB pluses" (refer to buy-in, dual eligible, dual entitlement, MN, QMB, and QDWI).

**Service Units** – The local administrative units of health care providers funded by the Indian Health Services that are on or near tribal lands.

**State wideness** — A State Medicaid program must offer the same benefits to everyone throughout the State, exceptions being possible through Medicaid waivers and special contracting options (refer to waivers).

**Supplemental Security Income (SSI)** — A program of income support for low-income, aged, blind, and disabled persons established in Title XVI of the Social Security Act.

**Temporary Assistance for Needy Families (TANF)** — Created by the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) of 1996, TANF provides assistance and work opportunities to needy families. This program replaced the earlier AFDC program (refer to AFDC and PRWORA).

**Waiver** –An exception to the usual requirements of Medicaid or Medicare granted to a state by CMS, authorized through the following sections of the Social Security Act or Social Security Amendments: 1) 402 of the Social Security Amendments of 1967—Provides Medicare demonstration authority to test alternative methods of Medicare payment and changes to the Medicare benefit package. 2) 1115 of the Social Security Act—Allows States to waive provisions of Medicaid law to test new concepts which are congruent with the goals of the Medicaid Program. Radical, system wide changes are possible under this provision. 3) 1915 (b) of the Social Security Act—Allows States to waive freedom of choice. States may require that beneficiaries enroll in HMOs or other managed care programs, or select a physician to serve as their primary care case manager. 4) 1915(c) of the Social Security Act—Allows States to waive various Medicaid requirements to establish alternative, community-based services for individuals who qualify for services in an ICF/MR, nursing facility, institution for mental disease, or inpatient hospital. 5) 1929 of the Social Security Act—Allows States to provide a broad range of home and community-based services to functionally disabled individuals as an optional State plan benefit. In all States except Texas, the option can serve only people age 65 or over.

# Attachment B. Medicaid Coverage in IHS Areas

**Table B.1 Number and Percent of all AIAN in the IHS Area CHSDA counties: Health Care Coverage according to the 2008 to 2010 American Community Survey of the U.S.Census. Note that +/- C.L." means plus or minus the upper and lower 90% Confidence Limits.**

# Attachment C. Unadjusted Payments for Medicaid Enrollees and Recipients of Services in IHS Areas

Dollar Figures in Attachment C are Unadjusted:

*In particular note there is no adjustment for the Medical Cost Index across the Areas*

Table C.1 Unadjusted Mean Medicaid and Third Party (mainly private insurance) per Medicaid Enrollee in the IHS Areas with no exclusions in the three main study groups. The 95% Confidence Limits for each mean value are also shown. Dollar figures are not adjusted for the Medical Cost Index in the Report.

| | | | Payment per Enrollee | | | | | |

**The state of Arizona could not be included because of the large numbers of enrollees in LTC without data on payments, apparently because of longterm care prepaid plans.*

# Attachment I. Analysis 4: Adjusted Payments per Month for Recipients, Under Age 65, Enrolled Any Months in Medicaid, in Capitated Medical Care

Table I.1 Unadjusted Mean Total Payment per Recipient per Month with any capitated CMCP medical care living in CHSDA counties of states served by IHS programs. Recipients with any months of enrollment in CMCP are under 65 years of age with any number of months of Medicaid enrollment. The 95% Confidence Limits for the means are also shown.
